

BRING YOUR PRODUCT TO LIFE
TO MILLIONS OF ONLINE USERS

Do you want potential buyers to interact with your product online?

Do you want a low-cost solution to get a better market reach?

Do you want to reduce the cost of on-site engineer visits?

Do you want to offer customers a chance to evaluate expensive equipment with a simulation?

Welcome to Embbox Solutions

Embbox Solutions specializes in the development of Interactive Three Dimensional User Manuals (i3D-UM). An i3D-UM is an effective way to advertise, demonstrate and instruct millions of online users about your products.

i3D-UM does all this for your business right from your website. Your viewers don't need to download any software to view a 3D user manual.

Services

Out of the box solutions

We use i3D-UM to describe your product exactly the way it is. Users will get a 3D view of your product's features and functionality.

Custom design and development

If your product has unique functionality or is built for a specialized vertical or industry segment, we can develop a customized i3D-UM to suit your specific needs and those of your target base.

Virtual showroom

Embbox can help you to create a virtual showroom for a range of products such as consumer electronics and entertainment gadgets. An entire catalog can be converted and presented in 3D and high-end products can be described with great style and detail.

Clients

We have provided various technology solutions including Flash applications, 3D Flash applications Augmented Reality and Internet/Web solutions to the following esteemed clientele:

Midwest Automotive Pvt.Ltd

#1studio.com

Polygon Adhesives & Resins Pvt. Ltd.

Customer Reviews

Constellation Marine Services

“ We have received many compliments from our clients for the ease of browsing and the simplicity of the site. We have a commitment from Kayomarz of regularly updating and improving our site in the future. We are extremely satisfied with Kayomarz’s follow-up and communication skills by virtue of which he has been able to follow our remote instruction and act upon them prudently. We applaud his efforts and wish him the best for his future assignments.”

- Capt. Zarir S. Irani
Managing Director
Constellation Marine Services

H1 Studio

“ Excellent provider. Provides great updates and tracking. Also willing to explore new ideas and find out how to get them to work. Provider is excellent in the work, very dedicated and keeps very good documentation on versioning of assets. Am very impressed.”

- Shen Heng
Managing Director
H1 Studio, Singapore
